

Healthē® Tote

Portable UV Sanitizing Case

Clean, sanitized items at the touch of a button.

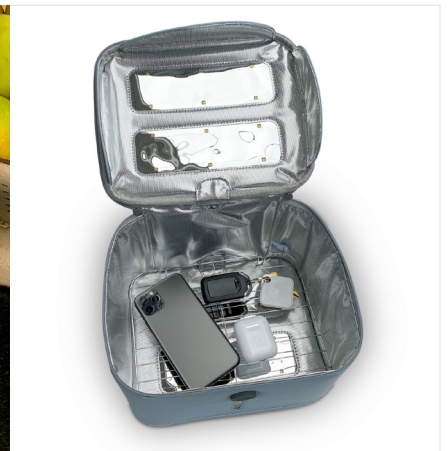

Keeping frequently touched household items and commonly used personal effects sanitary is more important than ever. The Healthē® Tote provides a quick and easy method to clean and sanitize your personal belongings, eliminating surface microbes and reducing germs. True to our mission of using light to enhance health and wellness, Healthē welcomes this partner product into the Cleanse family.

Equipped with ultraviolet (UV) LEDs, the Cleanse Tote employs a 3-minute, chemical-free cleaning cycle, which deactivates up to 99.9% of surface microbes. With its compact size, the Tote can conveniently fit anywhere at home or the office to help start sanitizing!

Applications

The CDC recommends frequent cleaning and disinfecting of common household items to reduce germs and microbes. The Healthē Tote is an easy option to sanitize personal belongings, such as glasses, wallets, watches, phones or other commonly used household items.
